

Key Areas of Attention for Coming Year 2020:-

When South Sudan became independent from Sudan], we did not have population policy for RH/FP Programmes. We were beginning from scratch. We are asking technical and financial assistance from both Regional and International Partners and in this respect we are calling PPD/ARO/ to support our resource mobilization efforts.

Action

1. Building the capacity for South Sudan policy makers for RH / FP
 - a) By organizing sensitization Workshop for RH/FP for National and State legislators
 - b) Holding a National conference on RP/FP, maternal and child health.
 - c) Undertake a rapid survey to assess RH / FP services in the country
 - d) Resource Mobilization

South Sudan commitment for 2020 NEAPACOH
