*“Since the **commitments fall within the scope of the 2030 Agenda for Sustainable Development**, we strongly encourage countries to use the reporting ecosystem for the ICPD PoA and the 2030 Agenda for the follow-up to the Nairobi Summit. Stock taking and follow-up could then be addressed through the **UN Commission on Population and Development (CPC)**, the periodic regional review mechanisms, and the HLPF. Commitments that are specific to UN entities will be take up in the context of their respective governing bodies. We also encourage that **country-specific commitments and actions will be reported back by the countries as part of the HLPF reporting**. We recommend that UNFPA, the United Nations Population Fund, periodically report on the progress made towards achieving the global commitments...”*
